Subject: Microsoft antitrust settlement

Dear Sirs,

I am NOT in favor of the proposed settlement in the Microsoft VS. US Government anti-trust case.

There are many, many problems with the settlement in my opinion.

There appears to be no punishment for the crimes.

There appears to be no restitution for the victims, either businesses or individuals.

There appears to be nothing but an ineffective panel setup to help Microsoft do nothing more than obey the same laws they have been continually flaunting.

Microsoft has shown contempt for the courts, the rights and intellectual property of other businesses and individuals.

I think it is necessary to make a statement to this company that this behavior will not be tolerated.

Please consider a HEAVY fine to be paid to the companies hurt in the past, and some effective ruling to make it IMPOSSIBLE for this scandalous behavior to continue.

Sincerely,
Ken Sherman
